## **Energy Audits**

We are pleased to offer our members two home energy audit options. We would like to help you save money on your electric bill by looking for ways to control your energy use. The best way to do this is to be aware of how much energy you use each month and how it is being used in your home, and don't forget we offer **Energy Conservation Rewards.** 

#### **Option A**

### **Basic Home Energy Audit**

You can easily conduct a basic home energy audit with a simple diligent walk-through. Complete the enclosed **Home Energy Audit** form and **Home Energy Audit Questionnaire** and return them to CWEC. Once the audit and questionnaire are reviewed by our team, we will give you a call to go over the results, talk about any concerns found, and discuss the next steps. We also use this information to offer energy saving tips. There is no charge for this audit.

- 1. Complete the **Home Energy Audit** and **Home Energy Audit Questionnaire**, and return both to CWEC.
- 2. Once CWEC reviews the information, we will call you and go over what we found.

#### **Option B**

#### **Professional Audit**

We've partnered with a state certified auditor to perform a more comprehensive audit. This audit will determine if your home has areas of heat loss, missing insulation, or other energy consumption concerns. You'll receive a report that includes infrared photos, identifies areas of concern, and lists energy saving recommendations specific to your home. There is a charge for this audit, but rebates offered by the Co-op could help offset the cost.

The cost of the audit is \$375.00. We will reimburse the member for the cost of the audit per completed recommended measure up to \$375.00 (not to exceed the cost of the inspection).

**Energy Audit Reimbursement:** 

Complete 1 measure -\$150.00

Complete 2 measures - \$125.00

Complete 3 measures - \$100.00

Each member account qualifies for only 1 Professional Audit every 5 years, regardless of the number of audits performed and regardless of the number of measures implemented.

# Option A Home Energy Audit Questionnaire

	We know saving energy often means saving money, but did you know that having an energy-efficient home can help out even more?					
	Making energy efficiency improvements is pretty easy, too! Tell us a bit about your home and we'll give you quick					
	tips and fixes, designed around your space, to help you cut down on your energy and costs.					
I	Name: Map Location					
,	Address:					
ı	Basic Home Energy Use Assessment:					
ŀ	How many people live in your home?					
ŀ	Have you purchased anything new in the last 2 months that uses electricity?					
ı	Have your living habits changed? (example Guests visiting, another person living with you, someone home more hours, etc.)					
ı	Basic Home Information:					
ŀ	How old is your home?					
ŀ	How many windows do you have in your home? How old are your windows?					
ŀ	How many doors do you have in your home? How old are your doors?					
ŀ	Have you done any home insulation recently? 🗍 Yes 📋 No 🔝 If yes, how long ago and where?					
-	Home Energy Saving:					
	Lighting					
	What type of lighting do you have? 🔲 LED 🔠 CFL 🛅 Incandescent					
	Average wattage?					
	Water Heater					
	How old is your water heater? Gas					
	What temperature is it set at?					
	Water Pump					
	How old is your water pump?					
	Have you noticed your pump running more than normal? 🗍 Yes 📄 No					
	Refrigerator(s)					
	Have you vacuumed the coil behind and under your refrigerator(s) in the last year? 🔲 Yes 📉 No					
	Medical Equipment					
	What kind?					
	Is it plugged in all the time? 🗍 Yes 📑 No If not, how many hours a day is it used?					
	Home Computers					
	☐ Left on sleep mode <b>or</b> ☐ Shut down					
	Out Building(s)					
	What type of out building(s) do you have?					
	☐ Garage ☐ Workshop ☐ Barn					
	Lighting					
	Lighting					
	What type of lighting do you have in each that you checked above?   LED CFL Incandescent					
	What type of lighting do you have in each that you checked above?   LED CFL Incandescent Wattage?					
	What type of lighting do you have in each that you checked above?  LED  CFL  Incandescent Wattage? How many hours of usage a week?					
	What type of lighting do you have in each that you checked above?					
	What type of lighting do you have in each that you checked above?  LED  CFL  Incandescent Wattage? How many hours of usage a week?

## **Option B**

## **Professional Audit**

On Site Performance Testing, LLC was founded by David and Barbara Geissler as an energy consulting firm for existing homes and new home construction/certification with 40 years of building experience.

and the companies of th

At On Site Performance Testing, LLC, we are the only **third party testing company** in the area and our goal is to make homes more energy efficient through data supported testing which includes: blower door testing, infrared scanning, combustion safety testing, and ventilation system checks. The blower door will depressurize the home and with the infrared camera we can detect where there is air leakage and where there is a lack of insulation.

Because we are a third party we will give you unbiased recommendations to make your home energy efficient,

comfortable, safe and durable. We have the ability to help resolve problems like ice damming, mold and moisture issues and promote energy savings. The recommendations are listed on a very detailed report along with pictures to help you understand your in-home issues.

- 1. If it is determined that the next step is setting up a professional home energy efficiency audit you can contact the certified auditor listed below to set up a convenient time for them to come to your home to perform the audit. If you choose to contact another auditor they must be a state certified auditor.
- 2. Home energy efficiency recommended improvements must be completed within 12 months of the audit date.
- 3. Projects should be related to electrical reduction and or/electrical efficiency
- 4. All documentation below must be submitted no later than 3 months after improvements are completed.

- ✓ A copy of the audit receipt or invoice showing date of audit and cost of audit
- ✓ Copy of the audit documentation
- ✓ Documentation showing improvements have been completed (paid receipts for purchases of windows, doors, insulation, etc.)
- 5. Additional eligibility criteria may apply. Contact cooperative for details.

# **Energy Conservation Rewards**

We are a strong advocate of energy conservation and using renewable energy sources. To make our member's energy projects more affordable we offer energy conservation rewards.

To apply for energy conservation rewards send CWEC a copy of your paid store receipt showing the purchased item(s). For household appliance requests include a copy of the yellow energy guide label that includes the energy star logo.

All Energy Conservation Rewards rebates may not exceed 50% of the final price at the time of purchase.

Residential Lighting	
LED Bulb	. 50% of cost up to \$75 on all LED lighting
LED Fixture	. 50% of cost up to \$75 on all LED fixtures
Non-Residential Lighting - Capped at 50% of cost	
LED Bulb (screw-in) Five bulb minimum	. \$1 each
LED Fixture	. \$1 per 800 lumens in the fixture
T5 LED Tube	. \$5 per lamp fixture
T8 LED Tube	. \$2 per lamp fixture
Occupancy Sensor	. \$5 each
LED Exit Sign	. \$5 each
Power Strips & Water Flow Restrictors	
Flow Restrictor - Faucet, < 1.5 GPM	. \$1 each
Flow Restrictor – Shower, < 2.5 GPM	. \$5 each
Smart Power Strip/Bar	. \$25 each, capped at 50% of cost
(includes Wi-Fi power strips)	
Heating & Cooling	
Geothermal Heat Pumps	·
Electric Thermal Storage-whole house	. 10% of unit cost, \$550 cap
Air Source Heat Pump (includes mini-split)	
Dual Fuel Heat Pump	
95% AFUE Single-or Multi-Stage Furnace	. \$200
96% AFUE Single-or Multi-Stage Furnace	. \$250
97%+ AFUE Single-or Multi-Stage Furnace	. \$300
ECM Replacement (must replace existing PSC Motor)	. \$35
90-94% AFUE Heating Boiler	
95%+ AFUE Heating Boiler	
90-94% AFUE Combination Boiler	
95%+ AFUE Combination Boiler	. \$550
Central Air SEER rating 14+	. \$250
Programmable Thermostat	. 50% of unit cost, \$200 cap
Energy Audits	
Inspection Allowance	. Please call for more Information or go to www.cwecoop.com
	(CWEC only services up to the meter, a licensed electrician
	must check any other electrical concerns)
